Weaknesses in European police cooperation

- **Contribution to the European databases SIS, EIS, Focal point**
- **Use of databases (SLTD)**
- **Police intelligence versus police information (classified information)**
- **No interoperability or single search interface databases for border control/migration versus law enforcement cooperation.**

Weaknesses in European cooperation

- Hybrid composition EU council working groups and other EU Fora (COSI)
- No or limited access for LEA to some databases (Eurodac, Europol and Frontex to SIS II)
- Use of some databases as investigation tool
- Systematic checks at border control of EU Citizens ?
