The Global Risks Report 2024

19th Edition

INSIGHT REPORT

In partnership with Marsh McLennan and Zurich Insurance Group

2 years

- 1st Misinformation and disinformation
- 2nd Extreme weather events
- 3rd Societal polarization
- 4th Cyber insecurity
- 5th Interstate armed conflict
- 6th Lack of economic opportunity
- 7th Inflation
- 8th Involuntary migration
- 9th Economic downturn
- 10th Pollution

10 years

- 1st Extreme weather events
- 2nd Critical change to Earth systems
- 3rd Biodiversity loss and ecosystem collapse
- 4th Natural resource shortages
- 5th Misinformation and disinformation
- 6th Adverse outcomes of AI technologies
- 7th Involuntary migration
- 8th Cyber insecurity
- 9th Societal polarization
- 10th Pollution

Risk categories

Economic | Environmental | Geopolitical | Societal | Technological

Maar dit is geen illusie...

Wat leren we hieruit?

“(...) The Committee recognises that Belgium needs to prepare for more regular disasters, that it needs to strengthen its response and preparedness to current crises and that civil protection is a shared responsibility between all sectors of society. In this context, the White Paper aims to guide and strengthen the way governments and their respective partners assess risks and work together to ensure prevention, preparedness, response, assessment and recovery. The aim is to increase the resilience of our institutions and the population”.

Committee of Experts on Crisis Management

- White Paper, Belgium, February 2023

Precinct

**Preparedness & Resilience
Enforcement for Critical INfrastructure
Cascading Threats and effects with
focus on district or regional protection**

This project has received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreement No 101021668

Living lab methodologie

- Situeert zich in **real-world context**
- Ondersteunt het **innovatieproces voor alle belanghebbende stakeholders**
- **Co-creatie proces**
- **User-centric innovatie** omgeving gebaseerd op dagelijkse praktijk en onderzoek
- **Multi-methods** onderzoeksbenadering

Verwachting?

1. Verbeterd **inzicht en systeem** voor vroegtijdige waarschuwing mbt mogelijke bedreigingen en cascade-effecten
2. Verbeterde **tool** voor risicoanalyse en (her)ontwerp van respons om de effecten van een dergelijke dreiging te beperken (coördinatie tussen betrokken belanghebbenden)
3. Een **systeem van vroegtijdige waarschuwing** komt de weerbaarheid van burgers ten goede

Living Labs – Digital Twin

Digital Twin

- Model, anticiperen, detecteren & coördineren
- Ondersteunen van het beslissingsproces bij coördinatie KI
 - KI network en alle relevante afhankelijke KI's
 - Ondersteuning van een weerbaar methodologisch kader

Living Lab Antwerp – Digital Twin Prototype

Living Labs – Serious Games

- Innovatieve kwetsbaarheid assessment tool
- Gebruikt voor trainingsdoeleinden als een manier van experimenteel leren
